SCREEN ROOMS

BRING THE BEST OF NATURE INTO YOUR HOME

Energy Innovation Light Enrichment Peace

Above: This screen room is built around the existing structural aluminum post which supports the conventional roof of this house.

Right: A screen enclosure constructed under a Snap-N-Lock™ Roof allows for the diversity of a combined patio cover.

Increased Value

Adding extra living space to your home not only provides you and your family a better standard of living, but also increases the value of your home.

If you've ever considered adding a room to your house, you've also considered the time and costs involved. Using conventional construction methods can be quite expensive, time consuming, and often require the reconstruction of your home.

Structall offers a wide variety of solutions for adding a screen room to your home. Whether you convert an existing porch or patio into a screen room or start a new screen room from scratch, Structall has a solution to meet your needs. Our screen room systems reduce construction time drastically, so you could be enjoying your new room in **a couple of days!**

Above: The versatility of our screen room components are shown on this gabled end application.

Right: This screen room was applied on brick kickplate, allowing for an architectural design conforming to the veneer of the home.

Above: Screen wall from roof to slab gives a full view of the scenic outdoors.

Customization

With all the choices available to me, why should I buy a Structall Building Supply screen room?

- Structall screen rooms are built with all aluminum materials for unsurpassed strength, durability, and low maintenance. Aluminum extrusion will not rust, allowing you years of hassle-free relaxation in your new screen room.
- Aluminum extrusion is available in five colors: white, bronze ivory, adobe, and sandstone which could be contrasted to give a range of modern looks.
- Structall screen room systems offer fiberglass screen in a

variety of colors and mesh sizes to control heat and air flow, letting you enjoy the best of the outdoors.

- Structall Building Supply offers the largest assortment of kickplates in the industry. Kickplates can be ordered with standard smooth or cedar embossed aluminum. Insulated kickplates provide additional impact resistance, and can be converted to a vinyl or glass room later. Insulated kickplates can be ordered with embossed Rigiwall Thermoplastic, and stucco or cedar embossed aluminum. Ask your contractor about the variety of kickplate colors and textures available to you.
- Structall screen rooms are the safest and best pest deterrent available. Keep pesky mosquitoes, gnats, and flies away from your enjoyment of food, family and friends.

Above: This screen enclosure features Structall Building Supply's bronze painted extrusions which contrast perfectly with the vinyl siding and soffit on this home.

Sun Breeze Edition

All of these choices are part of Structall Building Supply's Sun Breeze Edition room enclosures. This line includes both screen and vinyl window enclosures and was designed for those who wish to have the "feel of the outdoors" without having to deal with the harsh realities of Mother Nature. Screen rooms allow you to experience the fresh air of a Spring rain, the Summer breezes without the insects, and the cool crisp winds of Autumn. Structall screen rooms are for budget-minded individuals who want to add value to their homes immediately. Ask your contractor about other Structall Building Supply products such as patio and walkway covers, and vinyl and glass enclosures, all of which will enhance the beauty of your home.

Above: This screened enclosure turned an ordinary deck into a two-story room protected from sun, insects, and rainy weather.

Diversity of both design and materials offered from Structall gives you countless options for personalizing your new room.

Right: Use of Snap-N-Lock™ Roof and 3" insulated square cut panels for kickplates on this screen room prepares it for a future glass or vinyl enclosure.
